**Water Type:** Colorado River Water

**Current water depth:** N/A

**Estimated 100-year depth:** N/A

**Current decline rate:** N/A

**Basin:** Wellton - Mohawk

Dear Mr. Tanney:

Pursuant to A.R.S. § 45-108, the Department of Water Resources has reviewed the available information pertaining to the water supply for the above-referenced subdivision. This letter constitutes the Department's report on the subdivisions water supply as required by A.R.S. § 45-108(A).

Adequacy of the 100-year water supply was reviewed by the Department with regard to physical, legal and continuous availability, water quality, and financial capability. Information available to the Department indicates that the applicant has satisfied the adequate water supply requirements as set forth in A.A.C. R12-15-701 *et seq.* Therefore, the Department of Water Resources finds the water supply to be adequate to meet the subdivision's projected needs. Any material change to the subdivision plat or its water supply plans may invalidate this decision. See A.A.C. R12-15-708.

This letter is being forwarded to your office as required by A.R.S. § 45-108. This law requires the developer to hold the recordation of the subdivision's plat until receipt of the Department's report on the subdivision's water supply. By copy of this report, the Yuma County Recorder is being officially notified of the developer's compliance with the law. If you have any questions, please contact Richard Obenshain at (602) 771-8585.

Sincerely,

A handwritten signature in black ink, appearing to read "Sandra Fabritz-Whitney".

Sandra Fabritz-Whitney  
Assistant Director  
Water Management Division
